LEASERS MAKE MONEY.

\$10,000 a Month.

(Special Correspondence.) Rotinson, Sept. 20.—With less than a SOLD ABOVE 80 CENTS

Rotinson, Sept. 20.—With less than a month to run before the life of their lease expires, the Woodmansee folks are taking advantage of favorable conditions and pushing work in their purt of the Sunbeam for all there is if it. When leasers can clean up \$10,000 a month it must occur to the average rougler that they have what is commonly called a "snap." Yet that is what the Woodmansee leasers accomplished with their Sunbeam lease during the months of July and August, and the way they are putting out ore now it looks as if they would surpass the \$10,000 mark in September. All of which goes to show that the Sunbeam Consolidated entire must amount to something, if a very limited area gives such profitable results. The writer met Mr. Buckbee last evening, in company with R. B. Freeman of Tyrone, Pa., just returning from the mine, and subsequently had a pleasant chat with him relative to things at the Sunbeam. There isn't anything actually new or fresh at the mine, other than the preparations being made to receive the ground from the leasers, the handling of the product, arranging for larger ore storage, and better facilities for serting. Speaking

mine. The big shaft is down to the 390 point, and before the week is out the workness will be cutting the station for the 400 level. Thomas Weir expressed the pressed of construction in the big come in from Colorado yesterday and his perfect satisfaction with the conworkmen will be cutting the station for the 400 level. Thomas Weir expressed his perfect satisfaction with the conditions in general at the premises, and the gratification that no serious accident of any kind had occurred to the men or caused any delay. Answering a question as to whether a cross-cut would be driven from the 400, Mr. Weir replied that he was quite positive that unless some very material change occurred in the ground, the original programme of geing to the 600 point before exploring will be maintained. Stations have been put in at each level, commencing at the 200, so that when cross-cutting is begun there will be no inconvenience or necessity of delays, incident to knocking up the shaftway with workmen and timbers. The shipments of iron ore from the mine or quarry continue unusually large and in a measure, contribute towards defraying quite a portion of the expenses of sinking the three-compartment shaft. Touching on affairs at the Ajax, Mr. Weir said that he had good cause to feel much encouraged with the conditions prevailing in the mine, because the ore bodies, while not being so very extensive, gave every indication of increasing in dimensions. As for the THE OPHIR.

Washington, Sept. 20.—in an interview with a Post reporter today Senator Mason of Illinois said:

"On the floor of the senate I shall continue my opposition to the war upon the Filipinos. I would sconer resign my sent than trent a dog the way we are treating those people. I am ashamed of my country.

"People make a great mistake," he continued, "when they say that I am against expansion. I am not But expansion by purchase or other honorable means is one thing; expansion by force is another. I do not believe there was any necessity for this war upon the Filipinos. I believe that if we had adopted a resolution in congress assuring those people as we assured the Cubans, that we had no selfish designs upon them, we never would have met with any opposition in the Philippines. The fact is that we have given the Filipinos every reason to discrete the and they are fighting for their

"Talk about Bauling down our flag," continued Senator Mason, "will our flag come down in Cuba? Certainly it will if we are true to our promises. And the come down in Cuba? Certainly it will it we are true to our promises. And the day that it comes down will be the brightest day in our history, because it will show that we are a great, unselfish nation, devoted to the eternal principles of right and honesty. If the Cubans want to be annexed later, that is another question. Why cannot we deal with the Filipinos in the same way?

GREAT PARADE OF ODD FELLOWS

MAKE A FINE DISPLAY ON THE STREETS OF DETROIT.

Estimated That 4.500 Members of Order and Sisters of Rebekah Degree Were In Line.

hour this afternoon 4,500 Odd Fellows and their sisters of the Rebekah order were passing in review before Grand Sire Pinterton, Deputy Grand Sire Cable and Major General J. P. Ellacott, chief of the grand sire's staff. It was the finest and largest procession seen in Detroit since the great G. A. R. parade in 1890. Fully a score of bands furnished music. Street car and other traffic was suspended along the line of March, and the police kept the crowd of spectators well back on the sidewalks.

Brigadier General Martin, commander of the Michigan department of the Patriarchs Militant, led 1,000 members of the military branch of Odd Fellowship, all in full uniform, carrying drawn swords. Their perfect marching, excellent evolutions and fine appearance drew constant applause from the crowds that packed the Woodward avenue sidewalks from ourbs to building fronts. Ohio sent six cantons of patriarchs, Indiana three, New York three, Pennsylvania three, Massachusetts three, Michigan three and St. Thomas, Ont., one. setts three, Michigan three and St. Thomas, Ont., one.

Subordinate encampments followed segally attired and military looking triarchs, the division being headed a large float representing "The tins of Manne."

His Life Was Saved.

Mr. J. E. Lilly, a prominent citizen of Hannibal, Mo., lately had a wonderful deliverance from a frightful death. In telling of it he says: "I was taken with typhold fever, that ran into pneumonia. My lungs became hardened. I was so weak I couldn't even sit up in bed. Nothing helped me. I expected to soch die of consumption, when I heard of Dr. King's New Discovery. One bottle gave great relief. I continued to use it, and now am well and strong. I can't say too much in its praise." Fireman Rider was buried beneath the baggage-mail car and burned to death, the car and its contents of mail and baggage being entirely consumed. Another man, name unknown, probably a tramp, was also cremated in the fire that destroyed this car.

Conductor's Watch Was Slow. The trains met at a sharp curve. The freight was running at a high rate of speed, bound on reaching Ewope Park to await the passenger. Freight Conductor Brown's watch was thirteen minutes slow, as it developed later. The engineer of the passenger train saw the other train only two or three seconds before the crash. Neither crewhad time to jump. The passenger engine was telescoped by the postal and baggage car.

gine was telescoped by the postal and baggage car.

At once fire broke out and the com-bination car was destroyed, together with its contents of mail and express. Both engines were completely wrecked and several cars of cattle and hogs demolished and the livestock killed. The car on the passenger train back of the combination car did not leave the track, and the passengers suffered nothing more than a severe shak-

ing up.

It was only after the fire in the forward car had been quenched that it was known that two men had been burned to death.

Dr. Titcomb, the dentist, however, considers that his bid, the highest sent in, has been accepted, since he has re-ceived no official intimation that his proposal had been or would be reject-ed. "It is true," said Mr. Titcomb last evening, "that I falled to send a certi-fied check of 5 per cent as required, but my bid stated that I was prepared to pay the money if my terms were acvisits till Durrant paid the death penairv.

"I chanced to be passing the church
in which the murders were committed
at the hour which the police afterwards
is fixed upon as the time when one of
those poor girls was killed," said Mr.
Smith, in speaking of the affair today
"I saw Durrant hastily slip out of a
side door of the church, and as he
passed me and recognized me a look I
can scarcely describe was on his face.
It was fearful. I never mentioned this
r scene, for I thought the police had a
sufficiently strong case against the
young men, and this is the first time I
have ever told any one of it."

Mr. Smith says he called on Durrant
within an hour after he was condemned, expecting to find the student
prostrated. Instead, Durrant coolly
went over the argument of the prosecuting attorney and pointed out to the
minister where the attorney's argument
was strong and where it was weak.
